13 II
14 AGREEMENT

- 15 1. SSA has developed a protocol for completing emergency relative placements. The
16 protocol includes the following elements:
17 a) When immediate removal of a child from his or her family is required, SSA will
18 assess any relatives named by the parents, child, or family member, and any
19 relatives who come forward. When placement resulting from emergency relative
20 assessments can be completed within four hours or a reasonable time considering
21 the needs of the child, and before 8 p.m., the child will not be admitted to
22 Orangewood Children's Home ("Orangewood"), but will be cared for in the
23 Orangewood Placement room or other suitable facilities.
24 b) The emergency relative assessment protocol is based on the California
25 Department of Social Services ("CDSS") Recommended Emergency Relative
26 Assessment Guidelines (attached hereto as Exhibit A), and includes completion of

criminal records and Child Abuse Registry clearances. An in-home interview will be completed if the relative is not ruled out by the above-mentioned clearances.

c) SSA will place the child immediately with any relative who is available and meets the appropriate guidelines

2. When immediate removal of a child is necessary and no appropriate relative is available, SSA will make a good faith effort to place any child under the age of six years in a family-like setting. Such effort will include, at a minimum, contacting every foster home, emergency shelter home, and FFA foster home that is willing to accept the sex and age of the available child, has available beds, and currently contracts with the County for emergency placement. While SSA attempts to locate an appropriate family-like setting, the child will not be placed in Orangewood unless: 1) he or she has been waiting more than four hours or an unreasonable period of time considering the child's needs; 2) a placement cannot be consummated before 8 p.m.; or 3) the child is a member of a sibling set and placement with siblings can only be accomplished through use of same-cottage placement at an emergency shelter

3. SSA will expand its efforts to recruit and maintain a range of family-like settings to house children under the age of six years who are in, or will come into, the custody of SSA. These settings may include foster homes, emergency-shelter homes, and FFA homes. SSA's efforts to recruit and maintain family-like settings will include, but are not limited to:

a) Use of county or other available funds to develop and retain emergency shelter homes specifically for sibling sets of four or more children, teenagers, and other special needs children, with the goal of developing ten emergency shelter homes

capable of caring for four siblings each

- b) Work with community-based groups, known as Families and Children Together ("FACT") collaboratives, to recruit and support foster and adoptive homes
- c) Explore opportunities to develop more community-based services by collaborating with groups such as the FACT collaboratives, the Answers Benefitting Children ("ABC") project in Santa Ana, and the City of Santa Ana Youth Focused Community Policing Program.
- d) Use of county and other available funds to pay for child care and respite care services for foster children.
- e) Continue discussions with the County Chief Executive Officer about funding additional placement resources during the next fiscal year.

4. SSA will continue efforts to facilitate sibling contact for children in large sibling groups, when there is no available family-like setting in which to place the children together.

5. If SSA cannot consummate placement in an appropriate relative or family-like setting for a child under the age of six years within four hours or a reasonable time considering the child's needs, or before 8 p.m., SSA may temporarily place the child in Orangewood or another congregate care facility in accordance with all applicable laws and regulations and under the following circumstances:

- a) The social worker will obtain approval of his or her supervisor, and of Placement Coordination staff.
- b) Placement Coordination staff and the social worker will confer regularly to expedite transfer of the child to a family-like setting. Placement Coordination staff will review openings in other appropriate emergency shelter settings daily.

Reasonable efforts will be made to house siblings in the same cottage or living unit.

6. SSA will develop a Placement Coordination Unit staffed by SSA personnel that will have the authority and the primary responsibility to divert children to family-like settings as an alternative to Orangewood, or to transfer children placed in Orangewood to family-like settings. The Placement Coordination Unit will function as follows:

- a) Placement Coordination staff will maintain listings of all vacant emergency shelter beds and will provide intake and diversion services seven days a week. Placement Coordination Unit approval will be required for admission of a child to Orangewood, and the unit will have the authority to divert incoming children into appropriate settings or to transition children from Orangewood to other emergency shelter settings. When a child is diverted or transferred from Orangewood, Placement Coordination staff will insure that the child and caretaker receive all necessary immediate support to protect the child's safety and well-being and maintain the child in placement within the parameters of known information.
- b) Contracted support services designed to stabilize families, such as in-home supportive services, are now available.
- c) The Deputy Director of Placement Services or his or her designee will meet weekly with representatives from all SSA Children and Family Services programs serving children in out-of-home care to review the cases of children under the age of six years who are placed in Orangewood. Case staffings will be held to resolve especially challenging placement issues.
- d) Placement Coordination staff will schedule case staffings for all children under

1 six years of age who remain in Orangewood fourteen (14) days The following
2 individuals will attend the staffings:

- 3 1) The case carrying social worker or his or her supervisor or program
4 manager
5
6 2) A Placement Unit social worker, supervisor, or program manager
7
8 3) Others as SSA deems appropriate, including the Court Evaluation and
9 Guidance Unit therapist, the child's parents or appropriate family
10 members, the child's attorney, the unit staff assigned to act as the child's
11 primary care provider, and other SSA resource staff.

12 7. County Counsel will provide the Youth Law Center with monthly Orangewood
13 population data, including the number of children age birth to six years in Orangewood
14 beyond 14 days, the average length of stay for these children, the primary reason these
15 children were admitted to Orangewood, and the primary factors contributing to delay in
16 placement.

17
18 8. At SSA's request the Youth Law Center will actively provide support to encourage the
19 California Department of Social Services to:

- 20 a) Waive the process required by Welfare & Institutions Code section 11461, and all
21 other applicable rules and regulations, to increase the specialized care rate for
22 County Therapeutic Foster Homes to \$2,500 per month plus the cost of 48 hours
23 per month of respite care services, to support the development and retention of
24 foster homes for children who would otherwise require group home care.
25
26 b) Waive the process required by Welfare & Institutions Code section 11461, and all
27 other applicable laws and regulations, to increase clothing allowances for school

12 pursuant to Rule 225 of the California Rules of Court. This Agreement will remain in
13 full force and effect for two (2) years from the date of execution by all the parties.

14 11. SSA reserves the right to seek a revision of this Agreement if it is deemed necessary due
15 to issues of funding cuts and amendments or deletions in the law. Plaintiff will be

STANDARDS AND GUIDELINES FOR A MODEL ASSESSMENT OF RELATIVE HOMES

March 1, 1999

BACKGROUND

Chapter 793, Statutes of 1997 (Assembly Bill (AB) 1544 and hereafter referenced as such), which became effective January 1, 1998, amended Section 309 (d) of the Welfare and Institutions Code (WIC) to require a child welfare worker, when making an out-of-home emergency placement, to seek out relatives for placement consideration and if an able and willing relative requests temporary placement pending a detention hearing, the child welfare worker shall initiate an assessment of the relative's suitability, which shall include an in-home visit to assess the safety of the home and the ability of the relative to care for the child on a temporary basis. The results of the assessment shall be provided to the court in the child welfare worker's report. In addition, WIC Section 361.3 was amended by Senate Bill 933, Chapter 311, Statutes of 1998 (hereafter referred to as SB933) to require that by March 1, 1999, the California Department of Social Services (CDSS) develop standards and guidelines for a model relative assessment process.

In SB 933, the Legislature set forth "*family-centered, strength-based*" solution-oriented principles to advance an overall policy objective of establishing safe, stable and permanent families that promote healthy social, emotional, physical and cognitive development for children. Implicit in this policy objective is the expectation that county agencies work with relative caregivers and their families to assist them in establishing safe, stable homes. SB 933 also required CDSS to "make available Best Practices Guidelines for the assessment of children and families to all county agencies and the courts, and to conduct a pilot project to test the effectiveness of an assessment protocol or process developed in collaboration with county agencies and stakeholders". The Foster Care Policy Bureau, responsible for Kinship Care Program policy and the Child Welfare Services Bureau, responsible for developing the Best Practice Guidelines, are coordinating their respective implementation of these two legislative mandates to maximize uniformity in county policy and practice. Our broad objective is to guide the implementation of a model assessment process that will standardize how counties assess and establish relative homes for out-of-home placements of dependent children

SB 1901, Chapter 1055, Statutes of 1998 (SB1901) amended WIC 366.3 regarding the termination of guardianships to require county child welfare workers to evaluate whether services provided to the guardian could permit the child(ren) to remain safely in the guardian's home without terminating the guardianship, and if so, to report to the court describing those services. This legislative directive has implications for the assessment of potentially permanent relative placements that may result in guardianship or adoption. It supports an assessment process which does not screen out potential relative caregivers, without first examining their needs resources and strengths. CDSS believes that it is more effective, therefore, to adapt a "front-loading" approach which identifies needs and services at the beginning of potentially permanent placements. This process minimizes the risks to the child that might result from a lack of services or supports that

could have been provided “up front”. The Model Relative Assessment Guidelines ask child welfare workers to consider in their assessment of a relative’s home, the relatives/family’s strengths, resources and needs, and, what the county social service agency might be able to provide to enhance and support the relative caregiver’s capacity to provide a safe appropriate home for the child(ren).

PHILOSOPHICAL SHIFT

The CDSS Model Relative Assessment Guidelines and Best Practice Guidelines represent a fundamental shift from a deficit-based, worker/agency centered, to a strength-based, family-centered approach to the design and delivery of child welfare services. This shift has its roots in traditional social work principles such as “acceptance”, “beginning where the client is”, “self determination” and “client empowerment”. The Model Relative Assessment Guidelines and Best Practice Guidelines guide and direct child welfare workers in an intervention process that involves families in need identification and planning. They call for an assessment *with* the family, not merely *of* the family. Strength-based *inquiry* is critical to the strength-based needs assessment process. The CDSS Model Relative Assessment Guidelines and the Best Practice Guidelines provide information gathering and assessment strategies for agencies, child welfare workers and families to achieve the best care and protection for children by: 1) identifying and using the positive forces and strengths of extended families, and 2) determining what services and resources agencies will need to provide to stabilize and support the family.

WHY THESE GUIDELINES WERE NEEDED

- To standardize how counties assess a relative’s home for out-of-home placement of a dependent child. Currently there is considerable variability in the assessment of relative homes.
- To ensure a safe and secure placement for the child.
- To comply with the Model Assessment of Relative Homes and Best Practice Guidelines mandated by the Legislature.

FORMAT OF THE MODEL RELATIVE ASSESSMENT GUIDELINES

The CDSS envisions the Model Relative Assessment Guidelines being divided into two separate packages labeled:

- **Emergency Placement With Relatives and**
- **Non-Emergency Placement With Relatives**

A supply of both packages will be made available to all counties statewide allowing the county child welfare worker to take the appropriate package with them when leaving their office to conduct the assessment of a relative home. A package will contain the following documents:

Emergency Placement With Relatives This package includes 2 documents:

- Document: Emergency Placement with a Relative Assessment + Decision Form
- Document: Emergency Placement with a Relative Agreement

Non-Emergency Placement With Relatives This package would include 3 documents:

- Document: Comprehensive Non-Emergency Placement with a Relative Assessment
- Document: Non-Emergency Placement with a Relative; Decision Form
- Document: Non-Emergency Placement with a Relative; Agreement

The format of these assessment documents is designed to assist child welfare workers to engage relatives and families in information sharing and dialogue with the goal of enhancing mutual understanding of the state/county's responsibility regarding the welfare and protection of children and, equally important, the relative/family's interests, strengths resources, and needs as they relate to the capacity to meeting the child(ren's) needs. The information gathering procedures and open-ended questions encourage the relative/family to share and reflect on parenting concerns, personal feelings, survival skills, resourcefulness, support systems, needs for assistance and other information that might not surface fully in the traditional closed-end question and answer process. Family conferences/meetings are suggested for both emergency and non-emergency assessments. These settings encourage the identification of family strengths, challenges and needs, and facilitates agreement and understanding of what is needed from each member to ensure the safety and welfare of the child(ren). The shift is away from "what information does the child welfare worker/agency need to complete the forms and make a decision?", to "what are the

relative/family's strengths and needs, and what services and supports does the agency/community need to provide to enhance the relative's ability to care for and protect the child(ren)?"

CDSS is scheduling training sessions in the summer and fall of 1999 regarding the use of these guidelines. Announcements will be sent to county welfare departments and will be posted on the CDSS webpage: www.dss.cahwnet.ca.gov. Should you have any questions regarding these guidelines or training sessions, please call the Foster Care Policy Bureau at (916) 445-0813.
